We'll get your heart racing about lawns

Perfect lawn care starts here. At matev, everything revolves around the passion for perfect green spaces. Our extensive range transforms your tractor into an unbeatable multi-talent for professional and efficient maintenance. Whether versatile mower decks with customized drive solutions, powerful collecting systems in various sizes, or our grass harrow for that extra level of care—every product stands for strength, durability, and ultimate precision. Because your demand for flawless green spaces deserves nothing but the best!

Available colours

MOW-FM

Every cut counts

The robust matev **front rotary mowers MOW-FM**, with cutting widths ranging from 137 to 187 cm, are perfectly tailored for various applications. They impress with quiet, low-vibration operation, easy cleaning, and maximum flexibility with four mowing options: side discharge, rear discharge, mulching, and mowing with collection in a single operation.

MOW-PT

Lawn care meets species protection

The **MOW-PT portal mower** sets new standards for insect-friendly lawn care. Its counter-rotating blade drive ensures an even cut, while low-vibration operation and durable special ball bearings guarantee a long service life. With a cutting height of 40 to 100 mm, it offers efficient and environmentally friendly mowing technology.

MOW-MM

Edge-to-Edge Perfection

Our **multifunctional mower MOW-MM 152** enables higher speeds thanks to its compact tractor attachment with a quick-change system and the shorter distance to the grass collection system. Plus, with borderless mowing, it ensures clean and precise lawn care right up to the edge.

High-Performance Suction

The **CLS-XE collecting system**, with its exceptionally large capacity, is available as either a ground or high-dump version. Its powerful turbine ensures clean material collection, while the optimized container shape compacts the cuttings effectively, maximizing the use of the entire volume.

CLS-XE

A passion for collecting grass

The **CLS-SE collecting system** is available as either a ground or high-dump version, in carried or towed configurations. It features a lightweight yet robust self-supporting container with durable PE plastic shells.

WTS-WA

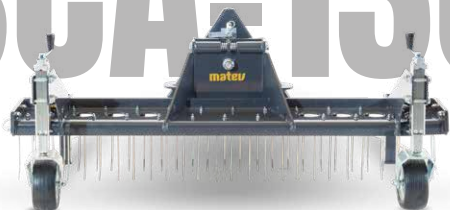

Irrigation with a wide reach

The matev **WTS-WA 420 H watering arm** delivers water exactly where it is needed. With its long reach, flexible control, and robust design, it is perfectly suited for professional irrigation of green spaces, traffic islands, and cemetery grounds in municipal applications.

SCA-130

The extra portion of care

The matev **SCA-130 lawn harrow** is the ideal addition to comprehensive lawn maintenance. Its spring tines loosen the soil and remove moss and thatch, allowing the grass to grow healthy and strong again.

LAWN CARE

Mowers | Collecting systems

Lawn harrow | Irrigation technology

GROUNDS CARE

Sweepers | Suction sweepers

Weed brushes | Trailers

WINTER SERVICE

Snow blades | Spreaders

Snow blowers
